www.busylight.com/support/lync

What do the colours mean?

Busylight UC supports the colours of Microsoft Lync, and adds extra colours to complete the solution:

- Red: Busy
- Red (pulse): Busy In a Call
- Purple: Do Not Disturb
- Yellow: Away
- Green: Available

Changing colours, ringtones and volume

Right-click the Busylight icon in your system tray.

Colours > Busy In a Call: Choose "pulsing red" (recommended) or "standard red"

Colours > Do Not Disturb: Choose purple (recommended) or red

Sound > Ringtones: Choose between 8 different ringtones.

Sound > Volume: Set the volume at 25-100 % or mute the device.
